

2005 MARKET SHARE REPORT

STATISTICS
MAY 2006

Preface

The **2005 Missouri Market Share Report** contains the 35 insurance carriers and groups with the largest Missouri written premium volume for five insurance lines: property & casualty, life, annuity, health, health maintenance organizations and dental. In addition, each company's premium growth and loss experience is indicated where applicable.

The report represents all licensed insurance companies for calendar 2005 writing direct business in the State of Missouri. The prepaid dental (PPD) organizations' and health maintenance organizations' (HMO) premium volume are included, but these premiums are not included in the 'Total All Lines'.

This report provides information on the market concentration and loss experience of the lines of insurance as reported in the annual statement. The experience for burglary, theft and all other lines were combined with the fire & allied lines experience; the experience for mobile home was combined with homeowners.

Except for earthquake insurance, this report was compiled using the National Association of Insurance Commissioners (NAIC) State Data Network, which relies on insurance companies annual statements to the NAIC and Missouri Department of Insurance. The earthquake results are based on a special MDI survey that provided accurate information on residential and commercial policies sold in the state.

The NAIC made numerous changes to the annual statement reporting forms as a result of the codification of statutory accounting principles. As a result, 2005 data may not be comparable to data from prior years. Particularly for life insurance and annuities, large increases in premium volume may not represent true premium change, but simply changes in accounting principles. The accuracy of all data in this report depends on correct reporting by the insurance companies.

The Statistics Section, Division of Market Regulation, Missouri Department of Insurance, publishes the **2005 Missouri Market Share Report**.
